

1. RULES AND REGULATIONS

KACHINGO is governed by the Rules and Regulations Respecting Bingo Games of British Columbia Lottery Corporation (“**BCLC**”) which include limitations of liability and are available from BCLC upon request.

KACHINGO is the linked bingo system and Afternoon, Evening and Late Night are the three games; and CASHLINE is a play component of the game.

2. ISSUANCE OF SHEET

To participate in a KACHINGO GAME a person must pay the participating bingo service provider the required amount as set by BCLC for one sheet (“**Sheet**”). Upon payment, a Sheet will be issued containing four (4) bingo cards, the draw date, bingo game and/or draw number, verification number, bar code, retailer name and other relevant information. Each Sheet is valid for a complete KACHINGO GAME.

By purchasing a Sheet, and upon payment of an additional amount set by BCLC per Sheet, the player will be eligible to play the CASHLINE game.

3. DRAW

BCLC will determine the time at which AFTERNOON, EVENING AND LATE NIGHT games will be played. On each draw and time fixed, BCLC will generate 75 bingo numbers which will be drawn in an unbiased and unpredictable manner from a range of bingo numbers: B1 to B15, I16 to I30, N31 to N45, G46 to G60 and O61 to O75 inclusive. The bingo numbers shall then be called one at a time in the order drawn and displayed simultaneously at all participating bingo halls. Not all 75 bingo numbers that are generated will be required to declare a winning bingo card on a Sheet(s). Any bingo number(s) not so required to complete a KACHINGO GAME will not be called.

4. RESULTS

- a. Each bingo number drawn and called will apply to each bingo game which comprises a complete KACHINGO GAME.

A complete KACHINGO GAME consists of at least four (4) bingo games played in the following order:

- i. CASHLINE game;
- ii. Pattern game;
- iii. Progressive game;
- iv. Consolation game (“**Consolation**”).

A complete KACHINGO GAME may also include a Bonus bingo game (“**Bonus**”) or Contingency bingo game (“**Contingency**”) in certain circumstances as permitted by BCLC.

- b. The CASHLINE, Pattern, Progressive and Contingency (if any) are played at all participating bingo hall locations simultaneously. The Consolation is played at each individual participating bingo hall. A Bonus may, at the sole discretion of BCLC, be played either at all participating bingo halls simultaneously or at an individual bingo hall.

The bingo numbers drawn for a particular KACHINGO GAME will be called and displayed simultaneously, one at a time in the order drawn, at all participating bingo halls. Such bingo numbers shall apply to each of the games forming part of a complete KACHINGO GAME.

- c. A player must mark each bingo number on a bingo card that matches a bingo number that is drawn and called.
- d. A winner is declared for each of the following bingo games when the conditions described below have been met:
- i. For a CASHLINE game:
 - (1) the player must dab the numbers on the top line of a Sheet which is eligible for the CASHLINE by matching between four and seven of the first 15 bingo numbers drawn and called;
 - (2) the player must present the card to the Service Provider at the location where the card was purchased and played, within 30 minutes of the end of the KACHINGO GAME at that location in order to validate their claim for the prize corresponding to the numbers matched on the CASHLINE. Prizes up to and including \$500 must be claimed when the card is officially validated. Where such prize exceeds \$500, the player has up to one year to claim the prize once the card has been officially validated within the 30 minute post-game time limit prescribed.
 - ii. For a Pattern game:
 - (1) the player has completed the pattern exactly as announced prior to the start of the game on any one (1) bingo card on a Sheet by matching the bingo numbers drawn and called in no more than 46 numbers;
 - (2) the player has clearly and audibly communicated that he or she has "BINGO" before the next bingo number is called; and
 - (3) BCLC has verified such bingo card is a winning bingo card.
 - iii. For a Progressive game:
 - (1) the player has correctly matched the pattern as prescribed by BCLC on any one (1) bingo card on a Sheet by matching the bingo numbers drawn and called within the predetermined number of drawn bingo numbers called;
 - (2) the player has clearly and audibly communicated that he or she has "BINGO" before the next bingo number is called; and
 - (3) BCLC has verified such bingo card is a winning bingo card.

- e. After BCLC has declared that the CASHLINE, Pattern and Progressive KACHINGO games are closed, each player at a participating bingo hall will continue with a Consolation bingo game for that bingo hall. A winner is declared for a Consolation bingo game when:
- i. the player has correctly blacked out any one (1) bingo card on a Sheet by matching the bingo numbers drawn and called;
 - ii. the player clearly and audibly communicated that he or she has “BINGO” before the next bingo number is called; and
 - iii. BCLC has verified such bingo card is a winning bingo card(s).

When a winning bingo card for the Consolation bingo game at that bingo hall is verified, KACHINGO will be closed at that bingo hall and the holder(s) of the winning bingo card (s) win or share the Consolation prize for that bingo hall.

- f. Subject to Sections 4g. and 4i. when a player communicates that he or she has “BINGO”, no further bingo numbers will be called until either a winning bingo card has been confirmed or it is determined that there is no winning bingo card.
- g. It is the player’s responsibility to declare “BINGO” or “KACHINGO” in such a manner that the caller at the bingo hall where the player is playing becomes aware of the declaration and stops the KACHINGO GAME before the next bingo number is called.
- h. After a winning bingo card has been confirmed, BCLC shall declare that portion of the KACHINGO GAME closed and any prize(s) won by each winning bingo card shall be displayed at all participating bingo halls. No further claim for any prize in a bingo game forming part of a KACHINGO GAME may be made after BCLC declares the KACHINGO GAME or that portion thereof closed.
- i. If a player has blacked out a bingo card and has a winning bingo card, but has not communicated “BINGO” to the caller at the bingo hall where the player is playing, then the KACHINGO GAME will continue and additional bingo numbers shall be called. A player who communicates “BINGO” after any additional drawn bingo numbers have been called must share the prize for that bingo game with all other player(s), if any, who become winners as a result of additional drawn bingo numbers being called.
- j. Anytime that a player is required to call “BINGO”, calling the word “KACHINGO” is considered to be the equivalent.
